Subject: RE: Status of Implementation Ready TMDL Schedule and Process and Final Draft Guidance for New Development

Hi Gene,

Thanks for the status report and giving me Zach's name as your representative.

I would love a link to the draft TMDL IMD. Can I pass it on to others (NOAA, EPA)?

You can email the draft schedule.

Can NOAA and EPA see an early draft of the Guidance Document for implementation plan development in urban and rural residential areas for review/discussion at the conference call? If not, how much time will you be providing for review? Will Zach and/or Don be able to provide the group with an overview or outline of the document?

Cheers,

Jayne

Hi Dave and Jayne

A draft TMDL IMD for traditional and Implementation Ready TMDL (IR-TMDL) development and implementation is available for your review. We can send you a link to the document.

I have a draft schedule for IR-TMDL issuance prepared. Do you want that via email or letter?

I am reviewing the Guidance Document for implementation plan development in urban and rural

residential areas. I think that should be available for external review by June 30, 2011

I have had some discussions with Larry about the use of Category 4B, but we need to talk about it some more internally before we can proceed.

I think things are still on track with the on-site POP in the legislature.

Things around here have been hectic with the toxic chemical water quality standards process, sorry I didn't get this to you sooner.

cheers
Gene

Attached is our current schedule for the CZARA work items.

These were discussed with EPA, NOAA, and DLCD during a conference call in mid-April. We have another conference call with EPA on CZARA in mid-June

Neil and Gene,

Has DEQ prepared and provided to EPA a document that includes the proposed schedule for implementing the Oregon Coastal TMDL approach?

According to the settlement, it was due March 31. If so, could you provide it to me?

Likewise, there was a Jan. 31st deadline for additional detail on the approach. Could I obtain that as well?

Thank you,

Nina
